WORK EXPERIENCE

Persist Venture, BirlaAI
Full Stack Developer | remote

12/2024 - 02/2026

- Led Agile stand-up meetings with 3 cross-functional development teams, resulting in a 20% reduction in project blockers and aligned the project with customer specific requirements and delivering project as per requirements.
- Designed and developed scalable full-stack solutions with responsive interfaces, robust backend architectures with microservice architecture using GraphQL and seamless API integrations, supporting 1,000+ concurrent users across B2B and B2C platforms
- Collaborated with 15+ stakeholders, investors, schools, and partner organizations to deliver product pitches.

EDUCATION

Masters Of Computer Applications
Chhatrapati Shivaji Maharaj University | GPA: 9.18

06/2024 - 06/2026

ACHIEVEMENTS

- Published production-ready applications on the Apple App Store and built full-stack SaaS products used by real users
- Appreciated by investors for delivering impactful product pitches and scaling to 2000 users and 20+ schools
- Published a research Paper on Agentic AI In software Testing

PROJECT EXPERIENCE

Memories : Timeline & Journal
Developed and launched "Memories Timeline Journals," a cross-platform journaling and memory timeline mobile application published on the Apple App Store. Built the full-stack product using React Native, TypeScript, Node.js, and cloud databases. Acquired 100+ users with 10+ paid customers while managing end-to-end development, deployment, performance optimization, and feature delivery independently.
Tech: React Native, MongoDB, AWS, Tailwind CSS, AI
