WORK EXPERIENCE

Full Stack Developer | Persist Venture, BirlaAI Dec 2024 - Feb 2026

- Led Agile stand-up meetings with 3 cross-functional development teams, resulting in a 20% reduction in project blockers and aligned the project with customer specific requirements and delivering project as per requirements.
- Designed and developed scalable full-stack solutions with responsive interfaces, robust backend architectures with microservice architecture using GraphQL and seamless API integrations, supporting 1,000+ concurrent users across B2B and B2C platforms
- Collaborated with 15+ stakeholders, investors, schools, and partner organizations to deliver product pitches, align business goals with technical execution, and support product growth initiatives

EDUCATION

Masters Of Computer Applications Jun 2024 - Jun 2026
Chhatrapati Shivaji Maharaj University

ACHIEVEMENTS

- Published production-ready applications on the Apple App Store and built full-stack SaaS products used by real users
- Appreciated by investors for delivering impactful product pitches and scaling to 2000 users and 20+ schools
- Built and shipped multiple independent products including AI tools and SaaS applications and many under development.
- Published a research Paper on Agentic AI In software Testing

PROJECT EXPERIENCE

Memories : Timeline & Journal Link

Developed and launched “Memories Timeline Journals,” a cross-platform journaling and memory timeline mobile application published on the Apple App Store. Built the full-stack product using React Native, TypeScript, Node.js, and cloud databases. Acquired 100+ users with 3+ paid customers while managing end-to-end development, deployment, performance optimization, and feature delivery independently.

Tech: React Native, MongoDB, AWS, Tailwind CSS, AI

ResumeFlow — ATS AI-Powered Resume Making Platform Link

Built a full-stack AI resume platform and 1-click browser extension that guarantees 95+ ATS scores, triples interview success rates, and cuts application time by 90%. Leveraged AI ATS analysis, Redis caching, and a secure backend for sub-second processing. This comprehensive solution provides real-time SEO keyword optimization, ultimately empowering job seekers to land top-tier roles.

Tech: React, Node, Express, PostgreSQL, Redis, Kafka, SEO, AI, ORM, Prisma
